

**BMDV-Workshop series**  
**“Data Innovations for Smart Mobility in Europe”**

Workshop No. 13:  
**Drones applications focusing on mobility  
improvement**

**Date:** Thursday, 20 October 2022

**Time:** 09.30 – 12.00 h (CET)

**Location:** Virtual Room (Zoom)

*[log-in details will be sent prior to the event]*

**Draft Agenda**

---

**09.30** Welcome and thematic orientation - Federal Ministry for Digital and Transport

---

**09.35** Thematic key note – Challenges and opportunities of integrating drones into the mobility sector *[provisional title]*

---

**10.00** Project presentations and discussions

Pitches from research and innovation (R&I) projects demonstrating how the use of drones can help improve mobility of people and goods. Invited speakers will showcase several applications of drones in the mobility sector, such as transport of people and goods, transport management and infrastructure maintenance. Some projects will additionally focus on safe integration of drones in the mobility system.

***Networking time***

In this slot participants will have the opportunity to interact with other participants in small groups and exchange ideas about topics of their choice.

***Exchange and Discussion***

Contributions from participants and discussion, focussing on possible innovations and how to scale up solutions generated by research and innovation (R&I) projects.

---

**11.50** Wrap up and farewell

---

**12.00** End of workshop 13

---
