Dear Ms Depré,

I would like to once again warmly thank you for your participation as an expert in the conference on “Turning the page: the next chapter for electronic road transport in Europe” on 3 September 2020. You made a major contribution to making the virtual exchange between the EU Commission, the EU Member States, the European stakeholder groups and industry a success. Please find enclosed my letter to Director-General Henrik Hololei, which contains the key results of the discussion.

I am looking forward to continuing our fruitful discussions on the challenges we will have to master for the necessary further deployment of a future-proof charging and hydrogen refuelling infrastructure.

Yours sincerely,

(sgd) Dr Klaus Bonhoff
